

Results of Reviewing of the Local Wellness Policy

The Healthy Hunger-Free Kids Act of 2010 requires a review of the school's Local Wellness Policy (LWP) every three years. The SHAC conducted the latest review on October 10, 2015 and updated that review on August 9, 2017. The SHAC found that the school is meeting the requirements of the LWP but makes the following recommendations:

1. Rewrite the LWP and submit the recommendations for the school board's approval no later than the Fall of 2019.
2. Expand the iterations and programs that promote the health and wellbeing of students to include school staff, parents and community members.
3. Outline a plan that directs students, staff, parents and community members to participate and coordinate school-based activities that promote nutrition and physical activity.
4. Post nutrition guidelines and information as they relate to all foods served on school campuses.
5. Expand the marketing program to promote and encourage more participation from parents and community members.
6. Include policies that give more explicit guidance on:
 - a. Foods provided by parents during school hours.
 - b. Any food sold on campus whether by the cafeteria or via fund raisers.
 - c. Students who are ill at school.

The SHAC wants more participation from students, parents, and community members as it rewrites the LWP. We encourage participation from anyone who wishes to share their time and efforts. If you would like to be a part of this process, please contact any cafeteria staff member.
